## Counting Up the Cost in Food and Beverage

One aspect of a meeting or conference our attendees will always remember is the FOOD! While making sure the speakers are all set, the AV is arranged and the registration materials will be ready in time, planners cannot forget about food and beverage. We have to select healthy, tasty food that is presented in an attractive way while facing the challenge of staying within THE BUDGET.

This presentation will discuss how we can stretch those Food & Beverage dollars while continuing to give our attendees an experience they will feel good about. Presented by Kathy Norris, CMP.
