Motivation by Chocolate

Motivation by Chocolate

This session features two things everyone likes – chocolate and motivation! It teaches nine key motivational concepts that can help participants get more out of every day – both personally and professionally. They'll learn about persistence, passion, effective allocation of resources, the law of diminishing returns, and much more! The session includes a chocolate tasting to demonstrate not only how to appreciate chocolate, but life itself. Attendees will also learn about the communication styles of the world's best chocolate makers and determine their own style. They can use this insight to better relate to others. (This session is also great for teams that need a little building.) All that and chocolate too!
